Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 29 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Fine and warm inland today. Turning murkier along coasts.

Today:
A dry day with long spells of warm sunshine inland. Low cloud or sea fret developing along Northumbrian coasts during the morning, extending to other coastal areas through the afternoon, giving a much cooler feel. Maximum temperature 21 deg C (70 deg F).

Tonight:
Coastal mist and low cloud spreading inland overnight, perhaps with the odd spot of drizzle in places. Feeling rather mild under extensive cloud cover, though cooler in the west. Minimum temperature 7 deg C (45 deg F).

Wednesday:
A dull and murky start for many with a few patches of light rain or drizzle. Low cloud clearing to the coast by the afternoon, with warm sunny spells developing. Maximum temperature 18 deg C (64 deg F).

Outlook for Thursday to Saturday:
Generally dull and cloudy starts, but sunny spells developing for most through the day. Mainly dry, though showers possible Saturday. Often warm by day inland, but fresher towards the coast.
